

GSDesigned is a boutique design studio founded in 2018 in Malta by Gavril Sertov (GS). Gavril studied architecture in France where he graduated in 2007. Since then, he has worked on different scale-projects throughout Europe before finally settling in Malta in 2017 and founding GSDesigned in 2018 in Sliema.

At GSDesigned, we put our heart and soul into crafting beautiful, harmonious, and unique spatial experiences. Our projects range from private residences and custom designed furniture to large commercial and office space designs. We strive to create spaces that are aesthetically pleasing, functional, and comfortable. Our designs are complemented by stunning in-house visuals and comprehensive presentations.
